REQUIREMENT

AEQA-14 / REQ-ORDER-001

Place Order: Register while Checkout

TEST CASE

AEQA-107 / AE-ORDER-001

Verify an order can be placed after registering during checkout

AUTOMATION TASK

AEQA-89

EXECUTION

Aug 16, 2026, 12:33 AM

chromium / automationexercise.com

Scenario

Expected result: A logged-out visitor adds a product, registers during checkout, completes payment with synthetic test data, and receives the order confirmation.

1. Add an in-stock product while logged out.
2. Proceed to checkout and select Register / Login.
3. Create a disposable account and return to checkout.
4. Verify address and order details.
5. Place the order and submit synthetic payment data.
6. Verify confirmation and delete the disposable account.

Assertion Results

Assertion	Status	Details
Checkout prompts the logged-out visitor to register	PASS	The checkout modal displayed the Register / Login action.
Registration completes during the checkout journey	PASS	The disposable user was created and authenticated.
Checkout displays the registered address and selected product	PASS	Delivery, billing, and Blue Top order details were visible.
Order confirmation is displayed	PASS	The site confirmed that the order was successfully placed.
